PROJECTS

Landmarks | landmarker.netlify.com | github.com/elizabethreese/landmarker *June 2019*

- A front-end application that uses the Google Vision API to identify if there is a historical landmark in a photograph uploaded by the user, and if so, plots it on a map.
- Built with HTML, Bootstrap, JavaScript, the Google Vision API, the Google Firebase API, and the Google maps API

PhotoLotus | photolotus.app | github.com/elizabethreese/photolotus *August 2019*

- A full-stack application that allows users to upload and save images to the platform.
- Built with HTML, CSS, JavaScript, Node.js, Express.js, EJS Templating, and PostgreSQL

React Trivia Game | react-quiz.info | github.com/elizabethreese/react-project *October 2019*

- This react quiz game tests the user's knowledge of the popular library.
- Built with React.js, Redux, JSX, and CSS

PRIOR WORK EXPERIENCE

Project Coordinator | EverSpark Interactive | Atlanta, GA *November 2018-Current*

- Managing the internal web development team
- Hiring and supervising freelanced web developers for various projects
- Overseeing internal operations including all projects and recurring deliverables for up to 35 clients at a time
- Reporting on efficiency of all projects

Digital Marketing Intern | EverSpark Interactive | Atlanta, GA *June 2018- November 2018*

- Edited and constructed optimized blog content
- Assigned and prioritized SEO tasks on platforms including Podio and Asana
- Ensured the completion of several different projects at once

Dept. of International Trade/Science & Innovation Intern | British Consulate | Atlanta, GA *March 2018- June 2018*

- Collaborated with global contacts to aid with the communications strategy for an international environmental antimicrobial resistance forum with the U.S. CDC and Wellcome Trust
- Researched tech, FinTech, and creative companies and contacts with potential for FDI expansion
- Aided with logistics planning for a trade mission concerning US/UK relations and the FinTech South conference as well as developed promotional materials for the mission using templates from the marketing team in New York

Press & Public Affairs/ Executive Office Intern | British Consulate | Atlanta, GA *August 2017-December 2017*

- Monitored and presented relevant news to the Public via press releases and social media platforms including Twitter
- Completed large-scale event planning including cultivating guest lists, gathering materials needed, liaising with event contacts, and set-up and take-down of events for high level attendees
- Assisted with the coordination of the Marshall Scholarship events including the hosting the selection committee at the residence and the interviews with candidates at the Consulate
- Supported the team during the visit of the British Ambassador to the U.S.

Freelance Writer | EverSpark Interactive | Atlanta, GA *December 2017- June 2018*

- Constructed online blogs for use by marketing clients
